

# JS UPVC AND GLASS SOLUTIONS

**SINCE  
2007**

**DESIGNING  
THE FUTURE  
TOGETHER**

There's some one  
behind every window

Why Does It Have To Be  
One Or The Other ?

A New Stranded to Flow

How Free Are You  
To Make A Decisions ?

**PASSION  
FOR WHAT  
WE DO**

## Maintenance Free

PSP Windows are dirt resistant and easy to maintain with normal soap water

## Fire Retardant

PSP windows are fire retardant. During fire, once source of fire is removed, a carbonaceous layer is formed preventing supplying of oxygen and stops the spread.

## Termite & Corrosion Resistance

PSP windows are termite and corrosion resistant. Salts, acids, alkali and waste gases cannot corrode the window system.

## Strong R&D Team

Our trained engineers aids customers with specific solutions with respect to segments of extrusion, fabrication, installation & service with a penchant for innovative systems to cater to market dynamics.

## Lead Free Profile

Lead being a cancer generating agent, we develop lead free profile to avoid health hazards to people. It also provides longer window life with stronger weld strength and better UV resistance.

## Large Reinforcement Space

PSP strategic designing of reinforcement space allows large doors for sunlight & scenic view and usage in high rises.

## Designed For Indian Weather Condition

PSP profile can withstand extreme weather condition like heat, wind and rain. Which is harsh in Indian sub continent.

## World's Best Raw Materials

Best & finest grades of raw materials sourced from Europe, processes under PLC SCADA based auto Weighing & Batching System with consistent quality to ensure the enhanced UV resistance.

## Wide Product Ranges

Unic versatile designs with engineering principles have led to development of various profile that are suitable for budget apartments to most premium villas.

## State of the art Manufacturing Facility

Best office flexibility when it comes to stock ordering and customized dispatch services. We also assure lowest lead time. This ensure easy cash flow, logistics and inventory planning for the fabricators.

## Flexible Stock Ordering & Lowest Lead Time

SPS offer flexibility when it comes to stock ordering and customized dispatch services. We also assure lowest lead time. We also assure lowest lead time. This ensure easy cash flow, logistics and inventory planning for the fabricators.

## Sound Insulation

Not only do they provide thermal insulation but also special sound insulation.

### **Design Friendly**

A creative collection of profiles mix matched with combinations like bayspoles coupled windows , combination windows, etc oru forte.

### **Aesthetics**

Looks matter the most . With this understanding, PSP windows are adaptable to develop attractive designs, ranges and wooden finish laminated

### **Strong Couplers**

Our unique coupler designs for large windows offer stronger resistance to wind loads.

### **Strong R&D Team**

Our trained engineers aids customers with specific solutions with respect to segments of extrusion, fabrication, installation & service with a penchant for innovative systems to cater to market dynamics.

### **Extra Durability**

PSP Windows do not warp, twist, or split. Impact modifiers in our profiles are treated with special additives, thereby making the material extremely long lasting.

### **High Weather resistance**

PSP windows are specially developed keeping in mind for Long exposures to sun, rain, wind & moisture cannot affect the window or durability..

### **High Impact Resistance**

PSP windows are designed and specially formulated to withstand high impacts during handling and installation.

### **Air Quality**

Indoor Air Quality can be maintained by avoiding interior energy loss PSP windows are well designed to save energy.

### **Excellent Cost Benefit**

UPVC profiles save a lot of costs in terms of maintenance & saving energy when Compared to Timber / Aluminium frames which are approximately 40% - 50% more expensive.

### **Extra UV Resistance**

PSP windows offer 100% UV resistance with 8 part of TiO<sub>2</sub>, which helps in retaining whiteness against exposure to sun.

### **Mug Mash Option**

To protect against insects, We have two bug mesh option available for our sliding system.

### **Training & Development**

Intense training on fabrication and installation that makes partner sales team self-reliant & competent.

## WHY PREFER UPVC PROFILE FOR WINDOWS & DOORS

- UPVC Windows & Doors can instantly give any room a face-fit. They look elegant and provide insulation against noise, dust, rain, pollution and raising energy costs making them ideal for Indian Living climate-Designed for Indian Conditions.
- They are easy to install and can be used to change the character of any room extend it or bring in more light.
- A new age window material made from UV resistant UPVC blend to withstand extreme climate.
- Superior insulation from outside heat as UPVC is a better insulator.
- Professional installation and perfect sealing ensures insulation from noise, dust & pollution.
- Do not expand or shrink, do not rust or corrode and never fades.
- Rain track and seal insulates from rain and hurricane bars withstand strong winds.
- Termite resistant and low maintenance-requires no painting only routine cleaning.
- Self-extinguishing and do not propagate fire: Allow easy escape in case of fire.

Quality of Trust

## JS UPVC AND GLASS SOLUTIONS

Plot No. B-5/A, Pipeline Road, Jeedimetla, Hyderabad - 500 055.
